Call for a Research Fellowship on "Reading and Statistical Regularities in the (written) language" Neuroscience Area, Prof. Davide Crepaldi.

The above mentioned selection is based on academic qualifications only.

Title of the project: Reading and Statistical Regularities in the (written) language.

Duration: 6 months starting from April 2023

Amount of the fellowship: € 2000,00 net per month.

Research activity: The Cognitive Neuroscience and Experimental Psychology of reading and visual word identification. We will study how the brain deals with written words, and in particular whether/how it takes advantage of the many statistical regularities in letter co-occurrence.

Requirements:

- MS in Psychology, Neuroscience, Computation, or any allied field.
- The ideal candidate will have experience in the design, construction, running and analysis of visual word identification and word learning experiments. S/he will have knowledge of the literature on reading and statistical learning, both on the behavioural and electrophysiological side.

Funded by: UA.00.NEUR.NC22

Applications and all the required documents must be sent by 9th March 2023, 01:00 p.m. through the online procedure available at the following link:
